

Category (科目区分)	Cluster Common Basic Subjects		
Course Title (授業科目名)	Latest Medical Research		
Instructors (担当者名)	Academic Affairs Chair	Academic Year (配当年次)	1
Required Course / Elective Course (必修/選択)	Required Course	Credits (単位数)	2
Class Format (授業形態)	WebClass (on demand)		
Schedule (開講期間)	From around late April 2023 to December 31, 2023		
Class Date/Period (開講曜日・時間)	—		
Course Outline/ Course Objectives (授業の概要・到達目標)			
The latest research will be introduced in an omnibus format, and the scientific thinking methods and The objective is to understand the research methodology.			
Course Planning (授業計画)			
	Course Outline/ Course Objectives (授業の概要及び到達目標) (Contents of Class) (授業内容)	Instructor (担当教員名)	Department (講座名)
1	Drug discovery focusing on ion transporter regulation	Hideaki Tagashira	Department of Integrative Physiology
2	Therapeutic drug monitoring in oncology	Masatomo Miura	Department of Pharmacokinetics
3	がん幹細胞自己複製を支える“ストレスなきストレス応答”	Yasufumi Omori	Department of Molecular Pathology and Tumor Pathology
4	Lung cancer in never-smokers; its molecular pathological characteristics.	Akiteru Goto	Department of Cellular and Organ Pathology
5	Innate lymphoid cells in disease	Takashi Ebihara	Department of Medical Biology
6	Recent G protein-coupled receptor research and new functions of bioactive lipids	Daisuke Yasuda	Department of Immunology
7	Molecular Pathophysiology in Inflammatory bowel disease	Yousuke Shimodaira	Department of Gastroenterological and Neurology
8	Practicing Precision Psychiatry with Biological Sensing Technology	Kazuo Mishima	Department of Neuropsychiatry
9	遺伝性皮膚疾患の最近の進歩	Michihiro Kono	Department of dermatology and plastic surgery
10	The current fashion of clinical research in suregery	Junichi Arita	Department of Gastroenterological Surgery
11	Development of personalizedmedical technology aiming for zero-surgical complications	Kazuhiro Imai	Department of Thoracic Surgery
12	Up to date for treatment of acute aortic dissection	Takayuki Kadohama	Department of Cardiovascular Surgery
13	Clinical practice and research in malignant brain tumors	Takahiro Ono	Department of Neurosurgery
14	腸管機能不全の研究と臨床	Mayako Morii	Department of Pediatric Surgery
15	Fertility perservation in cancer patients	Yukihiro Terada	Department of Obsterics and Gynecology
16	pen-pineapple-apple-pen	Yukitoshi Niiyama	Department of Anesthesia and Intensive Care Medicine

Grading Criteria (成績評価の基準と方法)
Grading will be based on the content of the submitted reports.
